Cycle 12 (11/18/2025-12/16/2025) Change Log

BT Tech 🤖 Team Summary:

- 15 💡 Features Added
- 8 🐞 Bugs Squashed
- Some Highlights:
    - Finished the system for clients to message case managers.
    - Improved load times on intakes.
    - Updated the questions on case audits and added case audits to manager consults.

Feature Improvements/Additions:

- Updated the questions on case audits and added case audits to manager consults.
- Added peer support sessions to the side of cases. Also counted peer support sessions on program engagement reports.
- Updated eligible and ineligible to be labeled covered and not covered under contract details.
- Added a link to Guru with a la carte pricing details under contract details.
- Updated life service intake receipt emails to have unique subject lines.
- Added the ability to turn an existing organization into a small business client.
- Updated the page for partners to schedule sessions with clients.
- Updated the vendor portal so that vendors providing layoff support are paid for time traveled.
- Removed custom referral to options for MIT.
- Improved load times on intakes.
- Finished the system for clients to message case managers.
- Removed reporting category from cases where the client is a household member.
- Added Abby to the review payables email.
- Removed the dropdown arrow from the main sidebar when there's no dropdown.
- Updated the protocall import to find open cases and update every hour.

Bug Fixes:

- Fixed bug that was filtering out payables on projects.
- Added a disable to the submit button when approving payables after the button has already been clicked.

- Fixed the bug that was preventing documents that expired today from showing in the expired documents section on affiliate profiles.
- Fixed the bug that was causing CC calendars to crash when any counselors had disconnected google calendars.
- Fixed the bug with datepickers not opening.
- Fixed the bug that was displaying irrelevant contract details on projects.
- Fixed the bug that was preventing service approvals from loading onto worklife vendor profiles.
- Fixed the bug that was preventing childcare search details submitted through an online intake from showing under progress notes.
